

# LUIZ MENEZHIM

Software Engineer / Front-end Developer / Full-stack Web Developer

## SUMMARY

Creative, detail-oriented, Software Engineer (MERN) and problem solver with professional experience in building and debugging JavaScript components. I enjoy working with new frameworks and am always eager to learn more. I am well-versed in JavaScript, HTML, CSS, and React/Next.

## WORK EXPERIENCE

### Software Engineer at 100devs, Los Angeles, CA

October 2021 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications / Troubleshoot other developers apps/websites
- Applied agile methodologies like SCRUM for project management

#### Recent Projects:

##### Engineer By Hustle Extension/Web App (WIP) -

- Job application tracking, focused on allowing easy follow-up and job application organization
- Full Stack app using NextJS and Firebase/Firestone for database and authentication

#### Other Projects:

### Website Security Analyst at Go Daddy | Tempe, AZ

August 2019 — Present

Advanced Website Security support for a variety of customers ranging from E-commerce, personal sites, blogs, and sites with login sections. Provided technical support for Website Security products across the board.

- Linux Administration
- Support via SSH/SFTP
- Html/CSS/JS Review (product troubleshooting)
- Log Analysis/JIRA ticket tracking
- Hosting Server Admin and Troubleshooting (NGINX, Plesk, cPanel)

### Advanced Technical Support Rep at Go Daddy | Tempe, AZ

September 2015 — July 2019

Helped customers in the Brazilian Portuguese market. Technical and Sales team to provide support to the South American market, along with general support for US customers.

- Content review for various platforms
- DNS/Domain troubleshooting
- Internal communication to various other teams as we were the only source of Portuguese support available
